

## Draft Certificate III – Turf Production

Cert III requires total of 16 units

- 11 Core units (shown as C) 5 Electives (shown as E)

**- DRAFT -**

	Code	Unit	Details
C	AHPCPM302A	Provide information on plants and their culture	Identify Grasses and cultivars Total of 12 grasses - warm and cool season Total of 12 cultivars
C	AHCPMG301	Control Weeds	Identify and assess weeds, plan control measures, IPM, Environmental Impacts, Implement weed control
C	AHCPMG302A	Control Plant Pest, Diseases and Disorders	Identify and assess pests and diseases, plan and implement management measures, environmental impacts
C	AHCSOL401A	Sample Soils and Analyze results	Soil formation, testing and interpreting results, review of profile systems.
C	AHCWHS301	Contribute to work health and safety processes	Risk assessments, machinery, best practice, apply work health and safety policies and procedures.
C	AGCCHM303	Prepare and apply chemicals	Determine the need for chemical use and prepare application, calibrate equipment, apply chemicals and clean equipment and record keeping.
C	AHCCHM304	Transport and store chemicals	Prepare transport and handle chemicals, storing chemicals, record keeping.
C	AHCIRG303A	Measure irrigation delivery system performance	Measure performance, monitor equipment, record and report systems, basic terms, methods, water sources, drainage.

- DRAFT -

C	AHCMOM304A	Operate Machinery and Equipment	Prepare machinery for use, operate machinery ie: Harvesters, mowers, quad bikes, forklifts etc.
C	AHCTRF302	Establish Turf	Assess soil and test, plant turf, maintain and monitor turf.
C	AHCTRF304A	Monitor Turf Health	Monitor turf, Biosecurity issues, Programs and technology.
E	AHCTRF303A	Implement a grassed area maintenance program	Prepare program, maintain and repair grassed area, report keeping.
E	AHCWRK309	Apply environmentally sustainable work practices	Identify current practices in relation to resource usage and sustainability, contribute to review of practices, improvement strategies, report keeping.
E	AHCMOM302	Perform machinery maintenance	Carry out engine and equipment checks, lubricate all relevant grease or lubricant points, carry out transmission checks, maintain components and attachments, record keeping.
E	AHCPCM301	Implement Plant Nutrition	Prepare and implement plant nutrition program, monitor soil Ph, determine nutritional problems, prepare fertilisers and application equipment and apply, record keeping.
E	AHCIRG306A	Troubleshoot Irrigation systems	Identify faulty components, shutdown and isolate component, replace and return to operating system, record keeping.
